“ I will never forget the day Dr. Wollschlager removed one of my wisdom teeth. I was at work and throughout the morning, my face slowly started to swell. I called his office and, as usual, he worked me in the next morning. He never said no to any emergency, always willing to adjust his schedule for his patients. Anyway, he had me in his chair, my mouth deadened from the novacane. He told me to open my mouth, looked at me with a smile, holding the forceps in his hand and said "I got really good at this in prison." Then proceed to extract the tooth. He later told me that, when he was setting up his practice in Tallahassee, that he was the dentist at the prison, and that while there he did many tooth extractions. It was his sense of humor that always suprised me as well as calmed me no matter what I had to have done. I will miss him in so many ways.

“ Annette and I were patients of Dr. Wollschlager for many years. Having met Phil in 1980 at a Full Gospel Businessmen banquet and knowing of his love for God and others, we always new we were in good hands.

On our dining room mantel stands an "anniversary" clock that Phil gave us over twenty years ago. It's name comes from the fact that it is to be wound once each year. Curiously, we wound it for this year on Saturday morning, October 8. Now, a tender reminder.

We share our heartfelt gratitude for this wonderful man and deep sympathy to his dear family as we reflect upon the many ways he blessed so many.

“ *Dr. Wollschlager was my dentist for many years when I was young and Anne was one of my best friends growing up. I spent many a hour at the Wollschlager home and have fond memories of hanging out with Anne and riding horses with her when I was in my teen years. I am so sorry to hear of your loss. It has just been over a year since I lost my father to cancer so I relate to your loss. Love to all,*
