“ I miss my Mother more than I can express, the same as my Father. It has been 8 years since my mother passed, and I am still lost without both of my parents. My Mother, just like my Father was the glue that made us a family. Before my parents were moved to a city far away from me I saw them several times a week. They were an important part of my Life, my Son is doing spectacularly well but they are not here to see him, just as he cannot see them. Without my Mother I am lost because they were both my Rocks, and without my mother my life has a hole that cannot be filled. As we approach another Thanksgiving I realize that I have not had a real Thanksgiving since 2016, and I am so sad.
