“ James was a true friend! He would give the shirt off his back if you needed it. I didn't know him well in high school but he became my friend when we started trying to get our class back together. He was our computer genius!! I am sorry I wasn't a better friend and touch base more often but I can tell you this for sure, you will be truly missed! You have all of our class information. My heart is sad at your passing.

*Edith and Susan,  
I'm so very sorry I didn't make James's service today. Too many things going on that we're out of my control.  
I have to tell you one of my fun memories of James.  
In kindergarten our class did the Hokie Pokie at the FSU circus and James was my partner! Pretty sure neither of us wanted to be at "center stage" doing the Hokie Pokie, but we did what we were supposed to do!  
My family and I are very sorry for your loss. Your brother was a brilliant man, and I'm glad I could call him my friend.*
