“ I’ve known Karen since our days at Ohio State. We have stayed in touch long distance since then. I called her last week but she didn’t call me back which was unusual so, knowing her health status, went online and was saddened to learn that she had died. Karen was a wonderful friend, very intelligent and perceptive with a wry sense of humor. She spoke often of her family and was very proud of her children and grandchildren. I admired her strength and courage in dealing with her cancer. Her death is a great loss for many of us and I will miss having her in my life. Nancy Melia
