

Linda Marie Carter

July 15, 1958 - September 15, 2021

The world welcomed Linda on July 15 1958. She left us heartbroken on September 15, 2021 as a result of Covid-19. Linda was a dedicated Labor and Delivery nurse for over 30 years. She prided herself in being a strong advocate for her patients and coworkers. She helped to bring thousands of lives into the world. She enjoyed creating several kinds of arts and crafts and sharing those talents with others. Her kindness and generous gifts adorn many homes. Above all, her greatest joy was being an amazing Nana to her granddaughters. She spoiled them fiercely with her love and her time. She also found companionship with her several dogs over the years.

She is preceded in death by her mother Mary and sister Cindy. She leaves behind her daughter Jennifer Moore (Chad Moore), her granddaughters Harper and Hazel Moore and her brother Danny Carter and Greg Olsen as well as a large loving family and many lifelong friends.

Breanna Green of Bevis Funeral Home is assisting the family with their arrangements. (850-385-2193 or www.bevisfh.com)

“ Linda...I'm so sorry, you had much more to give. Thank you for your dedication to patients . Thank you for your smile and your laugh. We still have the wooden Christmas tree you crafted, it comes out every year. This makes me so sad, but I know you are at peace, and that you will watch over us.

“ I met Linda when we were in the 8th grade. We lived a block apart in a north Minneapolis neighborhood. I was an awkward, shy kid and new to the area. Linda was strong and confident. We became friends. We've remained friends over the years helping each other through good times and challenging times. Recently she celebrated her birthday so we spoke on the phone. She was happy and said she had a wonderful time out with her family. Linda was one of the most forgiving people I know. She always tried “ mending fences” and many times became the bridge between differing sides. Linda loved being a grandma and I believe she is watching over her granddaughters now! Linda, my lifelong friend, I will miss you! Be at peace!

“ I never met Linda, but I know her daughter very well and that's enough to know she was one amazing woman...there's no question the world lost a good one. I know her daughter is raising some amazing granddaughters that will carry her into the next generation. My sincerest sympathy to her entire family.

“ Linda was an outstanding nurse. She was caring, kind, and advocated for her patients. Labor and delivery demands dedication, and she was exceptionally dedicated. Those of us who worked with her will never forget her, and she has left a legacy of thousands of babies she has helped into this world.

“ She has been a wonderful and great friend to me for 41 plus years. We had such great times as roommates and great friends that would fill a page or two. Word are not enough to express the feelings of loss all her family and friends are feeling now. She was amazing and she will be missed by many. Loved her dearly 💕💕💕💕

“ Linda was an exception nurse, but more than that- she threw her heart into everything she touched, especially her family. Her crafting abilities were a mere extension of her deepest love & gifts that God gave her and please Lord let her grandchildren carry on her legacy. RIP
