“ During this COVID stay at home order, I've been going through old photos. Nancy was my roommate one summer in college, and she lived with my parents briefly. We adored her! She was wicked smart and funny. She made the world a better place and I miss her terribly. Nancy - you will never be forgotten- ever!

“ I just read in the Universitas magazine from St. Louis University that Nance died. I was crushed, even though I haven't seen her since our Medical School graduation in 1983. She was brilliant, lively, kind, beautiful and was a lady to whom I looked up, but she never knew how much I respected her. I emulated her approach to patients in hospitals during our last year in Med School, but she never knew. Her classmates all loved and respected her ... I think she knew. All my prayers for her lovely soul, & for all those who knew & loved & will miss her terribly.

“ I have such wonderful memories of Nancy when I worked for the FSU College of Medicine's Tallahassee Regional Campus. She was always smiling and upbeat. CHP was so fortunate to have her as their Medical Director! I came to consider her a dear friend and admired her so much. My thoughts and love are sent to her family. Nancy will be missed. Ann Jenkins

“ Jayne lit a candle in memory of Dr. Nancy Van Vesseem

Jayne - November 14, 2018 at 10:18 AM

JP

I didn't know this talented lady, but her life reflected what the FSU family was proud of. The two victims were tragically connected that day, one for living the life of a kind and selfless person for 61 years, and the other destined to live that same life for many years to come. God Love them in heaven. Amen

“ Nancy was my yoga buddy. We both showed up for 6 a.m. hot yoga, sometimes five days a week, plus Friday nights and other days. Yoga was our shared fun, exercise, and restorative spiritual practice. We talked often since we were older than most in the classes and had a lot in common. Nancy was so low-key friendly and funny. Missing her. She was a beautiful force in so many lives. Namaste, Betsy Daley

Betsy Daley - November 12, 2018 at 07:55 AM

“ Nancy and I both attended Pacific Lutheran University. She was one year behind me and we shared a few science classes. I took a year off before attending medical school, so Nancy and I ended up in the same class at Saint Louis University School of Medicine, along with two other PLU grads. (It was unusual for such a small private university out West to have had 4 of us accepted at SLU's medical school in one class.) Though Nancy and I were not close friends and didn't have clinical rotations together, I always respected her for her intelligence and her outgoing personality. She was very mature and confident with strong social skills. I do not recall her ever saying anything negative about anyone. I knew back then that Nancy was destined to be a powerful force for good in the world. I never doubted that for one second. She had a way of captivating people's attention, in a good way. I wish I had known her better.

I was shocked to read her name in our local paper here in Michigan. It was like being punched. How could this happen to such an incredibly smart and talented person? She has been on my mind ever since. Such a tragedy and loss for humanity. She was a positive influence on many people, even many years ago.

*With sorrow,
Michelle Storms-Van Howe MD

“ I worked with Nancy for many many years at CHP. I knew Molly as a mopped head toddler and shared the joy Nancy experienced with the birth of her other two daughters. Amazed that she only took days off before returning to work. That sums up her work ethic. The only phone calls that Nancy took in meetings were from her precious daughters. Nancy was brilliant, driven, committed to improving health care and had no tolerance for incompetence, but what I respected most was her dedication to her family. I want to send my love and prayers to them to help them through this most difficult time.
