“ Gonna miss you, buddy. I was looking at a video of the National Parks last night. I remember when you went out there and you were absolutely blown away. I had been out west a few times before you and it was fun to see you talk about and light up over what you saw. Everyone should get to see the wonders of these places in our country. Next year, I am taking my boys out west to see some of these incredible places. I can't wait to see them discover these incredible landscapes. I can't wait to be with them when they see them. I will think of you and smile knowing that you got to experience this before you passed. Happy Trails, Pat.

“ Pat has done electric work at my own home and for my design clients for years. He was so smart and knowledgeable about his work and you could always count on him to do it the right way. He was funny and loved to laugh and he was great at telling a story. I'm so sorry for his family and friends. We will all miss him.

Richard, I will always remember our childhood marble games, riding bikes around our neighborhood, riding the bus together and the same bus stop. You and I graduated together. You were a good football player for our "Sharks." You were a good family man and you're going to be missed. "Go Rest High On The Mountain and until we meet again please say hi to my daddy."

“ I worked together with Pat at Moody Bros. Electrical Services, Inc. as did my deceased brother, George Moody, for eight years. It was wonderful having known such an intelligent, thoughtful, caring person as Pat Patterson.
Our thoughts and prayers are with his family during this time of grieving.

Rest in Peace,

Tom & Marjorie Moody, Marilyn M, Pendleton

“ We’ve known Sir Pat, as I called him, through years of home renovations and repairs so we always knew that he was a gentleman and truly a good soul. Several years ago Pat decided to drive out west visiting places he had only ever heard about...he was excited. At the time our daughter had just purchased a house in Albuquerque, NM, and it was a mess with dangerous DIY electrical work everywhere. Our daughter, being single and a naive first time homeowner threw hundreds of dollars into that black hole only to realize she had been scammed by various tradesmen. Upon hearing of her horror stories Sir Pat offered to see if there was anything he could help her with as his itinerary had him driving through Albuquerque. Fortunately, by that time she had found an honest electrician and did not need to accept Pat’s offer to help, but he did make a special point of stopping and calling her to check on things....during his vacation!

Pat, we will miss you so very much!

“ *In 1991, my husband was sent to Desert Storm and my 6 grade daughter And I were at home by ourselves. I do not remember how I got Pat's name and phone number but I called him to tell him what was happening and that my husband was on active duty and I did not know what to do. Pat told me he would be out that morning. For a week my pump had shut off every night when we got home around 5 pm and we would be without water. If your pump is off, that includes your toilet too. It turned out to be a transformer problem and not my pump. Pat took care of having Talquin take care of it and told us never to do without water like that again. He said it was the least he could do while my husband was serving his country. We never forgot Pat's kindness. I often wondered if he was still in business. He was a great guy and I wanted to share how much he helped me and my daughter. My condolences to all of his family. Barbara Jaeger.*
