“ *Yes he was definitely a role model to my young men and women. Never will forget my first football coach. Coach Tillman planted the seed in my football years early in my football career he tough me the basics of the game formation on offense football turmination like power I right 44 Isolation first he would always say learn the formation then the numbers let's everyone know who's getting the ball and what hole to run. He coached because he truly loved the sport and working with children he always made sure everyone had a ride to practice I can remember like yesterday he would pull up to shopchoppy Elementary school with the football helmets and pads and all us kids we would be like Christmas day. Coach Tillman Taught me alot about life as I looked back as he would say in football you going to get knocked down in football and life but you have to getg it huh v* ”
