“ *Bill (Dr. Price) began as an intermittent presence in my life -- from high school days when his kids had parties and we all hung out in the pool & cabana, through many, many years of holiday parties and family gatherings. He was always the consummate host and the quintessential gentleman. In the end, he was simply family ... my best friend's dad, the rock in the Price family, and someone I will forever admire.*

“ *I was too young to ever have met him but Dr. Price was an integral part of the medical team that saved my mother's life many times after she was diagnosed with an extremely rare form of cancer in 1975. He personally accompanied her gurney to recovery after countless surgeries, some of which were described as "exotic", and which I imagine were Dr. Price's own words. Although her case was initially considered to be hopeless, my mom lived another 13 years and was able to see my brother and me grown up. I am forever grateful to his medical expertise and the extraordinary care he gave to her. Sending heartfelt condolences to Dr. Price's family.*
